REQUEST FOR POLICY STATEMENT

Dear Mr Judd,

Thank you for your correspondence dated 21/02/18.

We recognise the role of responsible and licenced firearms use in an agricultural context and in supporting various pest control programmes in our national parks and conservation areas and recreational pursuits.

In considering any future amendments to firearms legislation or practices, the overarching priority for SA-BEST will unashamedly be public safety.

In this context, we remain open to continuing dialogue with your organisation into the future.

Yours sincerely

The SA-BEST Team
